**HOUSTON (June 8, 2011)** – [Greene's Energy Group](#) and its Brazilian entity, Greene's Energia Servicos do Brasil, a leading provider of integrated services for drilling, production, pipeline, construction and process operations, will introduce its latest rental tool, the Bucking Unit, at the upcoming Brasil Offshore event in Macaé, announced Tom Sawyer, Vice President International Business of Greene's Energy Group.

The Greene's Bucking Unit is a robust, self-contained and continuously-rotating unit that is designed to accurately make-up or break-out the threaded connections on tubular components such as drilling tools, casing, tubing and similar equipment.

"The Bucking Unit is the first of its kind in Brasil and will be a strong addition to the rental tool inventory of Greene's within the country," said Sawyer. "We look forward to the debut of the new technology in this market and remain committed to innovation and growth throughout the regions that we service."

The bucking unit will be highlighted at the Brasil Offshore event as well as at an open house being held by Greene's Energia Servicos do Brasil at its new Macaé facility on June 15 and 16 from 11:30 a.m. to 1:30 p.m.

Greene's Energy Group serves customers globally in [drilling](#), [production](#), [pipeline](#), [rig/platform construction](#) and process industries by offering tools and services to improve productivity and ensure safety, both onshore and offshore. Greene's employs 600 people worldwide with its group headquarters in Houston and operations headquarters in Lafayette, La.
