**HOUSTON (Feb. 9, 2011)** – [Greene's Energy Group](#), a leading provider of integrated services for drilling, production, pipeline, platform and process operations, has a new pipeline services location in Houston, announced Ibrahim Abu-Aisha, Houston General Manager.

The new location at 2705 Frick Road will serve as the base of operations for pipeline services and sales in the United States.

The new facility offers an expanded yard to allow for additional storage and room to expand its fleet of equipment.

With this move, the pipeline services division will expand its turnkey services and begin offering commissioning, nitrogen and water treatment services.

"This new location was a necessary step to meet the demands of a growing market and allow Greene's to continue to quickly respond to clients' needs," said Abu-Aisha. "In addition, by expanding our turnkey and nitrogen and filtration service offerings, Greene's is better positioned to provide customized support to the industry."

Greene's Pipeline Division has also expanded their operations to include facilities in Imperial, Pa. and Midland, Tx.

Greene's Energy Group serves customers globally in [drilling](#), [production](#), [pipeline](#), [rig/platform construction](#) by offering tools and
