

Remote Greasing Unit

Unit Specifications:

- Pressure rating: 15,000 psi rated
- Grease flow: ½" pipe - no restrictions
- Small footprint: 42" X 78" base
- Can accommodate all pad sizes as there are 12 hoses per manifold and each unit can be daisy-chained to the next with a shared grease supply
- Pressure gauge monitored to achieve desired valve packing
- Independent electric-driven reel hydraulic system
- Reel pedal system in place such that the reel cannot be engaged without the pedal being pressed

Unit Operating Features:

1. Rig-up / down benefits of remote greasing system
 - Additional rig-up requirements minimized with reel and winch system as grease lines are rolled off and easily connected to the valve and the manifold with quick connects
 - Reels make rig up / down very efficient as two (2) people can quickly reel out/in the grease hose with little physical effort and lowers the risk of damaging hoses and connectors
 - Rig up / down procedure maintains grease integrity and minimizes grease waste with quick connects and end-of-line plugs
 - Positively contributes to meeting ESG goals
2. Operational benefits of remote greasing
 - No operating time spent greasing as the valves are greased in the open position (remotely) while wireline is run in the hole
 - Facilitates better flushing and packing of valves which will help ensure valve integrity, reducing failure rates and decreasing NPT
 - Keeps us away from the red zone during operations
 - No man basket required during operations
 - Redundancy built in with surplus manifold outlets planned on every job
 - Components can be easily replaced during the job with no NPT

You Require. We Respond.

Greene's Energy Group, a completions and production-focused business servicing exploration and production companies, is ready to help with your next project in the Permian Basin, South Texas and other serviceable locations.

Greene's Energy Group values experience, knowledge, responsiveness and attention to safety as the keys to being a successful oil and gas service company.
